TOP 10 HOTTEST BRANDS | WINE BUSINESS MONTHLY

Every year, when Wine Business Monthly creates our annual list of Top 10 Hot Brands, we look for vintners, growers, wineries and wines that are making a statement in our industry. Quality is always an important consideration, but Hot Brands is more than a list of the “best” or most interesting wines we’ve tasted during the year.

The Top 10 Hot Brands list delves into what it means to be a part of the American wine industry, part of the American wine culture. And that culture is increasingly more diverse.
